AMK-5313

AXS - Shrouded Bracket Pack

The AXS Shrouded Bracket is made from durable stainless steel, offering corrosion resistance and long-lasting performance even in tough conditions. Its compact size makes it easier to install on the back of the cab or on trailers, providing a more streamlined and efficient mounting solution. Designed to withstand Australia's harsh environment, this bracket offers reliable protection for your AXS unit.

The pack also includes essential accessories such as elbow power fittings and elbow air fittings, providing a complete solution for easy installation and optimal system performance.
