AXS -Smart OBM Truck & Trailer Scales

AXS-1001/ 1002

AXS-1001 / 1002

AXS - Smart OBM Truck & Trailer Scales

Designed for trucks, trailers and dolly's fitted with air bag suspension. The unit is a smart solution suitable for various truck and trailer combinations.

Made with an aluminium base and polycarbonate cover, both high impact materials, the AXS guarantees durability and weather resistance. With its bright LED screen the display is clearly visible to operators outside the truck; day or night. It also has light features to let you know when the vehicle has reached a specific weight.

The AXS uses high quality air pressure sensors and technologies that calculate weights based on the air pressure supplied to the sensor. It collects the weights from the trailers through Bluetooth connectivity. The Airtec Smartphone App allows you to check your weights from your smartphone and save them for later reference.

AXS-1001 / 1002

AXS - Smart OBM Truck & Trailer Scales

IP66

Features

Universal 7~30 VDC power connection with voltage protection

Specifications

Construction High Impact Aluminium / Polycarbonate

Dimensions 55.8W x 80H x 80D mm, 0.8 kg
